Universal College and School of Nursing

About Us

Congregation of the Sons of Immaculate Conception (CFIC) is a religious congregation founded by Blessed Luigi Maria Monti in Italy in the year 1857, with the noble charism of taking care of the sick and education of the youth. At present the congregation is actively present over 29 countries across the globe. In India the Congregation is present with its apostolic activities since 1973. Universal Education Academy comprising of the Universal School and College of nursing is an active and dynamic apostolate of the Indian CFIC.

The Philosophy and motto

The philosophy and motto of Universal Education Academy i.e., "Mission of Caring" has its base on the life and example of our Blessed founder Luigi Maria Monti, who himself was a nurse and who dedicated his whole life for the selfless caring and service of the sick and afflicted. So, in Universal School and College of Nursing, the nurses are trained and skilled to provide competent nursing care with scientific application and the essence of humanitarian concern. The management of the Universal Education Academy aims at preparing nurses with quality and excellence to meet the challenges of health care. The institution promotes integral development of the students with special emphasis on spiritual, intellectual, psychological, moral and cultural aspects. We focus on preparing students for maximum professional effectiveness throughout their career. Universal School and College of Nursing takes pride in being the first nursing institute in Bangalore that works in collaboration with international nursing colleges and research centers. The college is located in the heart of Bangalore city with a serene atmosphere. It provides the students favorable environment for learning.
